

# Product Information

<b>Article No. 542 B7 and 542 C7</b> <b>Aluminium Oxide Paper</b> 										
<b>Base Stock</b>	Flexible latex B- and C- weight paper with high tear resistance									
<b>Bonding</b>	Resin over resin with dust-repellent additives in the top coat									
<b>Grain Type</b>	Aluminium oxide									
<b>Coating</b>	Semi open coat									
<b>Grain Size</b>	<b>542 B7:</b> P 800 - P 150 <b>542 C7:</b> P 120 - P 60, P 40									
<b>Manufactured Width</b>	1650 mm									
<b>Availability</b>	Sheets, cut sheets, discs, velcro discs, rolls									
<b>Market Segment</b>	Automotive industry - vehicle manufacture and repair. Dry sanding of electrocoat, primer and subsequent paint finish. Deburring and roughing of plastic parts such as: <ul style="list-style-type: none"> <li>• Bumpers, door mouldings and ornamental edgings.</li> <li>• High finish quality for paint jobs.</li> <li>• Woodworking.</li> </ul>									
<b>Advantages</b>	<ul style="list-style-type: none"> <li>• Full resinoid bonding ensures excellent performance and durability. Also suitable for brief damp sanding applications.</li> <li>• The dust-repellent additive incorporated as top coat prevents premature clogging of the grain surface. Unlike conventional stearate coating this repellent effect is maintained throughout the product life.</li> <li>• Brown aluminium oxide grain for maximum performance and durability. Designed to eliminate file marks on vehicle structures.</li> <li>• A product with universal application possibilities, thus resulting in an economical stock keeping.</li> </ul>
